

## MaxCS Release 7.5

### *Advanced Altigen Feature Support on Polycom Phones for MaxCS*

With MaxCS release 7.5, Altigen continues to add innovative features and functionalities to its MaxCS all-software IP-PBX and Contact Center solutions. This new software release enables the utilization of advanced Altigen features on Polycom business-class VoIP phones. It offers customers the choice to deploy cost-effective high quality industry standard phones with Altigen's MaxCS Private Cloud, Softswitch SaaS or traditional on premise solutions. In addition, MaxCS 7.5 provides support for high definition (HD) voice as well as support for Fax over IP (FoIP).
