MaxACD 7.0 Conversion to Redundant System

This guide describes how to convert an existing MaxACD 7.0 All-in-One system to a Redundant system. Before you begin the steps outlined in this document, we recommend that you speak with your AltiGen Sales Representative and/or AltiGen Technical Support to make sure that you have the correct licenses to operate a redundant system. Also, make sure that the redundancy feature has been enabled on your system key. &amp;lt;/iframe
